PROFILE

I am a university student in my third year, and I am both creative and technically inclined. Programming and graphic design are my passions. I have a strong affinity for visual problem-solving and for bringing ideas to life using both code and visuals. The tools of my trade include, but are not limited to, JavaScript, HTML, CSS, and various design software. I am certified in JavaScript and in Graphic Design, but my learning has not ceased; I have a hunger to acquire new skills and to keep abreast of the latest trends. I have a love for detail and for the types of complex, multi-layered problems that can be solved only by using a combination of code and design.

EDUCATION

BSc. Computer Science

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

Expected September 2026

W.A.S.S.C.E (General Science)

Mim Senior High School – Ahafo Region, Mim

September 2019 – September 2022

WORK EXPERIENCE

Freelance Graphic Designer

May 2023 – Present

- Created visual appealing identities, advertising flyers, and banners.
- Designed logos, brand identities, and marketing materials like brochures, letterheads for clients in real estate, churches, fashion sectors, and other organizations.

PROJECTS

Smart Note Manager (PERSONAL PROJECT)

- Developed a cross-platform mobile application with a clean and user-friendly interface, enabling users to efficiently manage their notes, reminders, and to-do lists.
- Key features include CRUD functionalities for Notes, Reminders, and To-Do items, scheduled reminders with local push notifications, and voice assistant integration to read notes aloud for accessibility, as well as a light and dark mode toggle for improved user experience.
- Built using React Native showcasing strong front-end development skills and mobile UI/UX design

Shazam Clone (TEAM PROJECT)

- I collaborated with a team of colleagues to clone a music identification application called SHAZAM.
- Revitalized the application by introducing exciting new features, transforming the User Interface for a fresh look, and elevating the User Experience to ensure seamless and enjoyable interactions.
- Built with tools like React Native, Javascript, and a Supabase database.

PortalNest – School Admission Management System (TEAM PROJECT)

- Developed a responsive web platform for managing student applications and portals for various schools.
- Emphasizing user-centered design, providing a simple and intuitive user interface, and enhancing user experience.
- Developed forms and user flow using HTML, CSS, Bootstrap, and Javascript.

PROFESSIONAL TRAINING/ CERTIFICATION

Proficiency in Javascript	1 st - 14 th May, 2025	Udemy
Adobe Photoshop(Basic to Advanced)	23 rd - 26 th June, 2025	Udemy
Graphic Designing	16 th February - 21 st April, 2023	Laton Impressions Training Institute

SKILLS AND ABILITIES

Technical Skills

- **Front-End Development** - HTML, CSS, Bootstrap, React, React Native
- **Version Control** - Git and GitHub
- **Programming Languages** – Javascript, Python, C++ (Beginner)
- **Design Tools:** Proficient use of Adobe Photoshop and Adobe Illustrator, Figma
- **Beginner Level Tools** – Cinema 4d, Adobe After Effects

Core Abilities

- Adaptability and Continuous Learning.
- Collaboration and Communication – Experienced working in team.
- Creativity and Problem-solving – I have the ability to break down complex real world problems into simpler forms, thereby solving them independently.
